Incorporation Documents Map

The details the client and the project lead enter during incorporation, the step each one comes from, and the documents the app fills in from them. Nobody retypes a detail: it is entered once and printed wherever it is needed.

Project lead

Each box on the left is a set of details and says which step collects it. Each box on the right is one document and lists what gets printed in it, and from which set of details. A line with a fork means "many": one director entry gives a whole set of documents, and every subscriber is listed on the subscription sheets. A subsidiary with one non-resident and one resident director, both holding a DIN, ends up with 18 documents.

one — many one — one one — maybe one a group of documents

DETAILS WE COLLECT

what the client and the project lead fill in, and at which step
