VCFO Suite
BY SBC

SBC
LOCAL CONNECT. GLOBAL OUTLOOK.

Your complete compliance companion.

One web app. SBC uses it to set up a client's company and to keep that company compliant.

THE CLIENT JOURNEY

1 Start
› Staff create the project
› Client gets a login
› Client answers a questionnaire

→

2 Prepare
› 34-step SPICe+ checklist
› Directors, capital, office
› KYC and DSC

→

3 Documents
› App makes MCA drafts
› MOA, AOA, DIR-2, letters
› Board resolution

→

4 Incorporate
› Filing with MCA
› COI received
› Company is live

→

5 Stay compliant
› Yearly compliance calendar
› Due-date reminders
› Filings register

WHO USES IT

Role	Main job	Sees
Super admin	Watches all firms and all projects	Everything
Admin	Runs the firm: people, projects, approvals, analytics	All projects in the firm
Manager	Checks and approves work. Sends results to the client	Projects of the team
Project lead	Does the work: fills steps, makes documents, asks for files	Own projects, today's tasks
Client	Gives information and files. Follows progress	Own company only

HOW ONE STEP MOVES

Lead or client fills
Data and files. Auto-save.

→

Lead submits
App checks missing fields.

→

Manager reviews
Accept, or send back.

→

Client sees result
Only approved work.

→

Everyone is told
Email, bell, WhatsApp.

Drafts stay hidden until a manager approves them. Every action goes into the audit log.

WHAT EACH ROLE CAN DO

WHAT IS INSIDE

Incorporation checklist
- 34 SPICe+ steps in MCA order
- Steps open in the correct order
- Red marks show missing fields

Document generator
- MCA drafts from checklist data
- One set per director
- Download all as one zip

Compliance calendar
- Due dates for each company
- Reminders before each date
- Proof stored in the register

Client portal
- Home with company snapshot
- Documents, team, announcements
- Works on phone

Ask VCFO
- AI assistant in the app
- Answers about status and rules
- Links to the correct page

Credentials vault
- Portal logins of the client
- Stored with encryption
- Only allowed people see them

PAGES BY AREA

Area	Staff see	Client sees
Dashboard	KPIs, approvals waiting, firm projects	Home: next step, due dates
Projects	All companies, phase progress, create project	Incorporation: four phase cards
Work	Today list, tasks, requests to client	Files SBC asks for
Compliances	Calendar and filings for all companies	Calendar and filings for own company
Vault and library	Document vault, knowledge bank	Documents, library, credentials
Communication	Mail (Outlook), announcements, notifications	Messages, announcements, notifications
Control	People, team, audit log, settings	Team, audit, settings

HOW PEOPLE ARE TOLD

Email · main record | **Bell** · in the app

WhatsApp · short nudge | **Outlook** · staff mail

If WhatsApp fails, email still goes.

SAFE BY DESIGN

Role access on every query | **Audit** log of all actions

AWS Mumbai region | **Encrypted** credentials

A client never sees another client's data.

IN ONE LINE PER ROLE

If you are	VCFO Suite gives you
The client	One place to see your company status, give files and never miss a due date.
The project lead	A clear list of today's work and documents made for you.
The manager	One inbox to approve work before the client sees it.
The firm	Full view of every project, every person and every deadline.
