STEADFAST BUSINESS CONSULTING

Your company, incorporated and compliant — in one app.

VCFO Suite is the web app SBC, a CA and CMA-led firm, uses to set up your Indian company and run its whole compliance life, with you inside the same app.

34 SPICe+ steps	**5** roles, one app	**1** record from day 0 to every filing	**2-in-1** platform + CA team

THE PROBLEM

- Incorporation runs on email, WhatsApp and Excel; the client never knows the status.
- The same director data is typed into ten documents; one typo means a resubmission.
- After the COI, compliance lives in a diary or another tool, and due dates are missed.
- Licences, DSCs and registrations lapse silently; tax notices are answered late.

THE VCFO ANSWER

1 Set up → 2 Document → 3 Incorporate → 4 Comply → 5 Grow

The platform holds one record, generates the documents, keeps the calendar and chases people for you.

The SBC team checks every step before you see it, files on your behalf and answers for the result.

WHAT MAKES IT DIFFERENT

Ten unique features; the six that matter most

U1
One app, day 0 to every filing
Incorporation and compliance on the same record. No hand-over, no re-entry.

U2
Documents write themselves
MCA drafts from the checklist answers, one set per director, one ZIP.

U3
Manager approval gate
Nothing reaches the client unchecked, and every action is logged.

U5 COMING SOON
The app chases for you
Request lists, T-60/T-30/T-7 expiry alerts, notice escalations, client health.

U6
Ask VCFO
Answers from the client's actual status and files, with citations.

U7 · U8 COMING SOON
Board meetings and receivables
Notice to signed resolution; collections with bank matching and nine currencies.
