VCFO-CR-2026-11: status of the 39 change items

Checked on 11 November 2026 against the code on `main` (9f84ee2b) plus the board resolution fix made the same day. Every item was checked against the change request's own acceptance points, not against the notes in `STATE.md`. Where this file and `STATE.md` disagree, this file reflects what the code does.

Summary

Status	Count	Items
Done	21	GL-04, NV-03, PR-01, PR-02, CD-01, CD-02, CD-03, DR-01, DR-02, DR-03, DR-04, SB-02, SB-03, BR-01*, BR-03, BR-04*, BR-06, BR-07, LP-01, LP-02, LP-03
Mostly done, small gaps	11	GL-01, GL-02, GL-05, GL-09, NV-01, NV-02, CD-04, SA-01, SB-01, BR-02*, BR-05*
Real work still needed	6	GL-03, GL-06, GL-07, GL-08, NV-04, SA-02
Blocked on the owner	1	CD-05
Total	**39**	21 complete, 18 still need work

* Fixed on 11 November in branch `claude/relaxed-gates-iry9wm`. The fix is committed and pushed, but not merged or deployed yet (see "Board resolution fix" below).

Of the 8 P1 items, 3 are fully done (PR-01, BR-03, LP-02). GL-01, GL-07, GL-09, NV-02 and NV-04 still need work.

Board resolution fix (11 November)

Before the fix, the client could not reach the board resolution edit at all. The edit, tracked changes and approval chain were only mounted on a staff screen that portal clients never open. The fix does four things:

1. The client's Board resolution page (`/app/client/board-resolution`) now has the edit panel: Edit draft, Confirm edits, Send to the firm.
2. The client's steps 2 and 3 show a "Draft board resolution" or "Signed board resolution" card with the draft preview, the signed copy and, on step 2, the edit panel.
3. The Lead now sees the generated draft (preview and Download) on step 2, and "Generate draft" when there is none. Before, the Lead's step returned early and showed nothing.
4. "Send to the firm" now opens the shared "Send email" pop-up (GL-07) with the email to the Lead. Cancel sends nothing and keeps the edit with the client. The email is recorded as `email.sent`.

Files: `src/components/client-portal/pages/incorporation/StepBoardResolution.tsx` (new), `BoardPage.tsx`, `StepPage.tsx`, `src/components/incorporation/BoardResolutionClientEdit.tsx`, `Phase1StepPanelRoutePanels.tsx`, `src/lib/board-resolution/client-edit-flow.ts` and `app/api/engagements/[id]/board-resolution/client-edit/route.ts`.

Done (21)

ID	Item	Notes
GL-04	(i) help icon replaces "Why this?"	No "Why this?" text remains. No test for the pop-up yet.
NV-03	Breadcrumb segments are links	
PR-01	Project name field keeps focus	e2e covers the new-project page only.
PR-02	Download project as ZIP	Staff only; made in the background.
CD-01	"How many directors?" removed	The minimum is a fixed 2 directors.
CD-02	One card per director, "+ Add director"	At most 4 directors.
CD-03	Director grid (spreadsheet layout)	Part A grid has no "Add director" button.
DR-01	DIN verification flow	Manual check, as proposed.
DR-02	Only the client fills Proposed directors	The server drops the Lead's edits silently instead of refusing them.
DR-03	Notify client when Proposed directors starts	In-app notice; the email is manual.
DR-04	"Assign to Lead" for Manager and Admin	
SB-02	Part B directors: same grid and DIN check	The DIN check button shows in Cards view only.
SB-03	Subscriber conditional questions	Built as "Non-individual"; the CR said "Non-Indian" (open question).
BR-01	Draft step shows the generated draft	Fixed 11 Nov (Lead and client).
BR-03	Client sees who holds the work	Uses the owner's 11 Nov wording.
BR-04	Client edits the draft in the app	Fixed 11 Nov (now reachable from the client portal).
BR-06	Notify every participant	In-app only, as GL-07 requires.
BR-07	"Request a change" with "Send to Lead"	
LP-01	Light theme by default, dark toggle	
LP-02	No app screenshots on the landing page	The owner still has to sign off the section list.
LP-03	Hero animation per headline word	The owner still has to confirm the word list.

Mostly done, small gaps (11)

ID	Item	What is left
GL-01 (P1)	Notification "Open" goes to the exact step	Two client notifications (`docs.share` , `checklist.review` in `src/lib/checklist/checklist-notifications.ts`) still open the Incorporation page. When the user cannot open the step, no reason is shown. Old notifications have no Open button.
GL-02	Toasts	The client portal still uses its own toast (5 s, no pause on hover), not the shared 3 s one.

ID	Item	What is left
GL-05	Side panel collapses and expands	Remembered per browser (`localStorage`), not on the user's account.
GL-09 (P1)	Proper letter casing in documents	Father's names, the witness name, corporate subscriber names and the board meeting documents are not cased.
NV-01	Incorporation dropdown in the sidebar	For the super admin, every sub-item opens the same page (`SuperPracticeIncorporation.tsx` ignores `?view=`).
NV-02 (P1)	Sidebar "Incorporation" returns to the main page	Works; the required end-to-end test is missing.
CD-04	"Paid-up share capital" label	The board resolution text (`src/lib/board-resolution/board-resolution.ts` lines 51 and 95), its `.docx` templates and the NOC templates still say "initial Paid-Up Capital".
SA-01	Acknowledgement number on every application	INC-22, FC-GPR and MGT-4/5/6 have no field. The MCA filing card kept its own separate "SRN" field.
SB-01	Part B follows the MCA form sections	"Proposed directors" (section 7) still comes before "Subscriber details" (sections 5 and 6). The AGILE nominee group has no section number.
BR-02	Signed step shows draft and signed copy	Fixed for the client on 11 Nov. Still missing: who uploaded the signed copy, Open in the document viewer for the draft, and an upload area in the card (it links to the board page).
BR-05	Edit, confirm, Manager, Admin, back to client	Fixed on 11 Nov: the client's buttons are reachable and "Send to the firm" uses the email pop-up. Still missing: a returned document is not added to the Lead's work list.

Real work still needed (6)

ID	Item	What is left
GL-03	Active tab clearly highlighted	The `segmented` variant of `SpectrumTabs` and the Radix `TabsTrigger` show the active tab by colour only. About 10 tab bars are hand-written (create project, payroll, saved views, client credentials, team, compliances, documents).
GL-06	"Export to Excel" buttons	The Directors grid has no button. The audit log export holds only the rows already loaded on screen.
GL-07 (P1)	Manual "Send email" pop-up, no automatic emails	Still automatic: staff progress emails and lead-to-manager emails (`src/lib/email/notify-engagement-event.ts`), welcome emails when a client or project is added, staff-to-client message emails (`src/lib/messages/notify-messages.ts`) and task assignment (`src/lib/work/assign-task.ts`). The step card's compose pop-up cannot add or remove attachments. No card shows who sent the email and when.
GL-08	Standard file name for every download	About 15 downloads still use old names: DIR-2, the board meeting notice and resolution, the document ZIPs, the client compliance CSV, budgets, receivables, labour registers, super admin reports, the client audit export and several browser-side CSV downloads.

ID	Item	What is left
NV-04 (P1)	Audit and fix all wrong redirects	`e2e/link-audit.spec.ts` only opens links on each role's home page. Deeper pages, breadcrumbs and notification links are not checked, and no audit table was delivered.
SA-02	Name approval expiry date editable	Only the Lead can edit it (the Manager and Admin cannot). No audit record of old and new values. The server does not stop a client from writing it. No expiry reminder uses the new date.

Blocked on the owner (1)

ID	Item	What is needed
CD-05	"Existing interest in company" to "Any Indian company"	The owner's field details. Also, the "Any Indian company" label was later replaced by the MCA wording from SB-01 ("Whether the director has interest in other entities (7A(ii))"). The owner must choose which label to keep.

Open questions for the owner

- CD-05: the field details and which label to keep.
- SB-03: whether "Body corporate" is for non-individual or for non-Indian subscribers.
- LP-02: the list of landing page sections to keep.
- LP-03: the list of headline words and one visual idea for each.
